

OPERATIONAL CONTINUITY FOR CATS PROTECTION

Salute supported Cats Protection, the UK's leading feline welfare charity, with a disaster recovery solution to protect critical IT systems and ensure operational continuity across its adoption and administrative centres.

Project data

-  **Deployment location:** Chelwood Gate, East Sussex
-  **Deployment type:** Disaster recovery and critical power infrastructure
-  **Scope:** Supply, installation, commissioning, and ongoing maintenance of critical IT systems

Our customer's business priority

- Protect IT systems and data to ensure uninterrupted operations.
- Support the charity's network of centres, branches, and administrative offices.
- Maintain accessibility and security of critical technology during power outages.

Problems our customer faced

- Need for a comprehensive disaster recovery solution in a constrained mezzanine location.
- Tight project timelines without disruption to existing operations.
- Ongoing operational continuity requiring maintenance and rapid response.

Solutions provided by Salute

- Supplied and installed critical power infrastructure and associated IT equipment.
- Conducted pre-construction audits to address weight and footprint constraints.
- Provided a 3-year maintenance contract with annual checks and 24/7 emergency response.

Business Impact

- **Operational continuity assured**
maintaining secure, accessible IT systems across all centres and offices
- **Reduced risk and improved reliability**
through a robust disaster recovery solution and ongoing maintenance support
